

Working together to develop the skills for success in industry and university

Specialists in science, technology, engineering and maths
in partnership with industry and the University of Lincoln

Requests for access

At Lincoln UTC, we believe that it is important to offer students the right courses which meet their needs and match their interests and future aspirations.

The students at Lincoln UTC have an impressive track record of success in the qualifications that we offer as part of our specialist provision ... but we appreciate that there are other education providers offering different courses which may be of interest to some of our students.

Other providers (of alternative, approved technical educational qualifications or apprenticeships) will always be given direct access to our students for the purpose of informing them about these alternative courses.

Providers wishing to speak to our students simply need to call or email (enquiries) and we will agree dates and opportunities. All such requests for access will be accommodated.
